

PROXIMITY DATA CENTRES

# EDGE 4 CHESTER

**Proximity Edge 4 is conveniently located between Chester and Manchester and offers low latency connectivity to the North West of the UK.**

Easily accessible from the M56 Motorway with multiple data halls the 24/7 site offers highly secure services including onsite support for colocation and edge computing.

All of our data centres come with simple contracting and full UK support, transition, and onboarding to make sure your data centre operations keep running smoothly.

# EDGE 4 CHESTER

## Power

- › Edge 4 Chester benefits from 3 MW of power availability with full UPS and 7 generators for power backup.
- › As with all our edge data centres Chester sources power from renewable energy suppliers including solar and wind power. All backed up by 82,000 litres of fuel storage tanks for generator use.

## Connectivity

- › The site boasts multiple network providers via two diverse routes with the ability to terminate into multiple points within the facility. Edge 4 is also strategically placed for access to the Fibrespeed network with low latency links to Dublin and Manchester.

## Cooling

- › Minimum N+1 on cooling mechanical infrastructure.
- › Chillers across all halls with downflow units.

## Fire Protection

- › VESDA smoke detection and Gas suppression system in halls.

## Certification Standards

- › ISO 9001
- › ISO 14001
- › ISO 27001

*Edge 4 is conveniently located to Manchester and Chester with easy access to the M56. The data centre is built to the highest standard with office space and kitchen facilities for visiting engineers.*

## Profile

- › Edge 4 has a net technical area of 54,919 square footage across 2 data halls.
- › Protected by full perimeter fencing and multi-layer access control.
- › The site offers the ideal location for all colocation and edge computing requirements.
- › There's 24/7 security and access.
